1 ACCOUNT NUMBER

This is your PG&E account number, which you will need to upgrade to TotalGreen for 100% renewable energy or opt out to remain entirely with PG&E.

2 PG&E DELIVERY CHARGES

PG&E charges you to deliver electricity to you over existing powerlines, maintain the lines, and provide customer service. These charges are unchanged with SJCE service.

3 SJCE GENERATION CHARGE

This charge replaces PG&E generation charges and covers the cost of buying cleaner electricity for you. Default service from SJCE is cheaper than PG&E.

4 TOTAL AMOUNT DUE

Your total includes the above, plus PG&E gas service, if applicable.

5 YOUR ELECTRIC CHARGES BREAKDOWN

This is a breakdown of PG&E charges only. They include transmission, distribution, and other fees and taxes that fund regional and statewide programs such as energy efficiency rebates. They match the PG&E charges in number 2 and are unchanged with SJCE service.

Your Electric Charges Breakdown

6 SERVICE AGREEMENT ID

A service agreement documents your specific arrangement with PG&E (including billing days, metering information and other factors) to calculate your charges. If you have multiple meters under a single PG&E account, each meter will have a unique Service Agreement ID number.

7 TIER USAGE

This shows the highest tier you're being charged for. If your electric use is more than your Tier

1 Allowance (which is set by state law), and goes into Tier 2 or higher, the price you pay per kilowatt-hour (kWh) will increase. Time-of-use rates do not have tiers.

8 GENERATION CREDIT

This is what PG&E would have charged you for generation service. Since SJCE now provides your electricity, it is credited back to your account.

9 POWER CHARGE INDIFFERENCE ADJUSTMENT

PG&E charges SJCE customers a Power Charge Indifference Adjustment (PCIA), calculated based on the number of kWh used each month. It's intended to ensure SJCE customers pay the difference between what PG&E paid for power already contracted on your behalf before you joined SJCE, and the current market
