After the announcement of a recommended award, all proposals received in response to this RFP will be subject to public disclosure.

In order to designate information as confidential, the Seller must clearly stamp and identify the specific portion of the material designated with the word “Confidential” and provide a citation to the California Public Records Act that supports keeping the information confidential. Seller should not to over-designate material as confidential. Over-designation would include stamping entire pages or series of pages as confidential that clearly contain information that is not confidential. Upon request or demand of any third person or entity not a party to this Agreement (“Requestor”) for production, inspection and/or copying of information designated by Seller as confidential information (such designated information, the “Confidential Information”), SJCE will notify the Seller as soon as practical that such request has been made. The Seller shall be solely responsible for taking whatever legal steps are necessary to protect information deemed by it to be Confidential Information and to prevent release of information to the Requestor by the City. If the City takes no such action after receiving the foregoing notice from the Seller, the City shall be permitted to comply with the Requestor’s demand and is not required to defend against it.

If required by any law, statute, ordinance, a court, Governmental Authority, or agency having jurisdiction over the City, including the California Public Records Act, the City may release Confidential Information, or a portion thereof, as required by the Applicable Law, statute, ordinance, decision, order or regulation. In the event the City is required to release Confidential Information, it shall notify the Seller of the required disclosure, such that the Seller may attempt (if it so chooses), at its sole cost, to cause the recipient of the Confidential Information to treat such information in a confidential manner, and to prevent such information from being disclosed or otherwise becoming part of the public domain.

SJCE reserves the right to modify the terms and conditions of this solicitation at any time based on changing needs and market feedback. SJCE also reserves the right to rescind this solicitation at any time prior to SJCE's execution of a binding agreement.
